

What is carshare?

What's it all about?

Car sharing is very much what it sounds like; two or more people arranging to travel together in one car instead of making similar journeys separately.

What are the benefits

- Save money on fuel and parking costs every time you share a journey
- Enjoy a more sociable and less stressful way of travelling
- Reduce your carbon footprint and help to cut congestion and pollution
- Reduce the wear and tear and weekly mileage on your car

Why would my organisation want to be involved?

Five good reasons for joining Carshare Shropshire and Telford:

- Offer employees an extra travel choice which can halve the cost of travelling to work
- Increase access to work for non-drivers, boosting recruitment and retention
- Reduce pressure on parking spaces
- Make a measurable reduction of the carbon footprint of your organisation
- Help to reduce congestion and pollution
